

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1.-12. (Canceled)

13. (Previously Presented) A mold conditioning sheet comprising at least two base sheets, a mold conditioning component and a molding member, the mold conditioning component and the molding member being enclosed between the two base sheets; characterized in that the base sheets have a structure in which the base sheets include a fibrous base sheet having a porosity of 70% or more as an outermost layer of the mold conditioning sheet, and the molding member is unvulcanized synthetic rubber and/or natural rubber, does not contain a vulcanizing agent and is heat melted during molding of said mold conditioning sheet.

14.-15. (Canceled)

16. (Previously Presented) The mold conditioning sheet according to claim 13, wherein the mold conditioning component mainly comprises a thermosetting resin and a release agent and contains at least one member selected from a mineral powder and a curing agent.

17. (Previously Presented) The mold conditioning sheet according to claim 13, wherein a combination of the mold conditioning component and the molding member is enclosed by covering or heat sealing a part, or the whole, of the base sheets using a thermoplastic resin film or tape.

18. (Previously Presented) The mold conditioning sheet according to claim 13, wherein a combination of the mold conditioning component and the molding member is enclosed by adhering the base sheets using at least one of a double-sided tape, an adhesive, and a pressure sensitive adhesive.

19. (Previously Presented) The mold conditioning sheet according to claim 13, wherein a combination of the mold conditioning component and the molding member is enclosed by adhering the base sheets by pressing or deforming the base sheets.

20.-21. (Canceled)
